

“INTELLECTUAL PROPERTY RIGHTS IN CYBERSPACE”

Unveiling Excellence

Organized by **Department of English & USLR**
UNIVERSITY OF SCIENCE & TECHNOLOGY MEGHALAYA

Accredited **“A”** Grade by NAACIn collaboration with **Cyberlaw University****ABOUT USTM**

Located in the Ri-Bhoi district of Meghalaya, India, the University of Science & Technology Meghalaya (USTM) is the first State Private University in all of Northeast India to have been awarded the accreditation rating of “A Grade” in its first cycle of assessment by the National Assessment and Accreditation Council (NAAC) in 2021. USTM was established in 2011 and is promoted by the Education Research & Development Foundation (ERDF), which was founded by Shri Mahbubul Hoque in 2005 at Guwahati, Assam, India Guwahati, with the aim of imparting quality education to a society aspiring for education at different levels. Contributing to society by nurturing leaders and by unlocking the potential of youth through excellence in education, innovation, and entrepreneurship constitutes the mission of USTM.

ABOUT CYBERLAW UNIVERSITY

Spearheaded by its Founder-cum-Honorary Chancellor Dr. Pavan Duggal, Cyberlaw University® is an online university dedicated particularly to the study of cyber law and related legal issues. The university offers various courses and diplomas intended to make participants more aware of different legal matters pertaining to the cyberspace. With its conviction that cyber law constitutes the basis of current and future online transactions as well as the surrounding ecosystem, Cyberlaw University is committed to bring to its participants the constantly evolving trends regarding legal issues that impact computers, computer systems, computer networks, communication devices, data, and information in the electronic form. It is the goal of Cyberlaw University to become a common central point for the growth of Cyberlaw jurisprudence.

ABOUT THEME OF WEBINAR

As per the Oxford University Innovation (OUI) Limited, an Oxford University subsidiary that sees to the University’s technology transfer and consulting activities, “Intellectual property (IP) is ideas, information[,] and knowledge. In the University context[,] IP can be viewed as the results and outcomes of research—‘intellectual’ because it is creative output and ‘property’ because it is viewed as a tradable commodity.” Accordingly, “Intellectual property rights (IPR) are specific legal rights which protect the owners of IP.” Why and how is this protection offered? And what are its implications in relation to cyberspace? These questions constitute the pivot of this webinar.

WHO CAN PARTICIPATE?

UG/PG Students & Research Scholars.
